

## TEMPO t39k sofa modules

design Timo Saarnio

Tempo t39k is based on the classic Tempo t39 sofa. This version of the sofa is designed with high sides and roof to offer privacy and create an acoustic space. When privacy or a sense of one's own space is needed, Tempo t39k is a good choice.

Tempo sofa can be modified to meet the customers' needs. The structure is steel tube and birch veneer, the upholstered pieces being foam and wadding. Fabric can be chosen by the customer.

The available module heights are 130 cm without roof and 150 cm for roofed version.

t39k A1

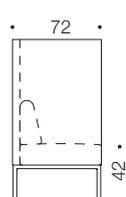

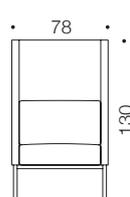

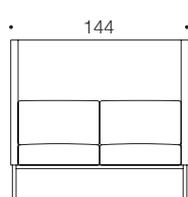

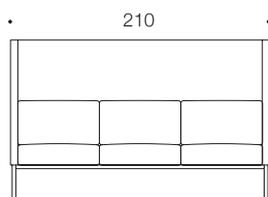

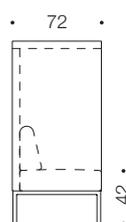

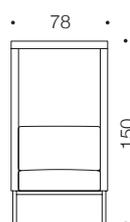

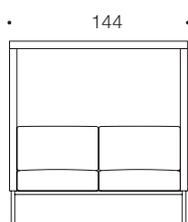

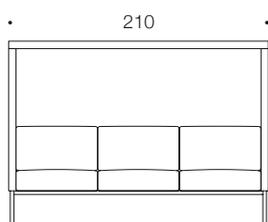

t39k/ka B1

t39k B1

t39k C1
