

TEMPO t39 sofa modules

design Timo Saarnio

From the sophisticated Tempo t39 sofa modules, reduced in their forms, can be built with various kinds of seating solutions according to the needs of the customer. The structure of the Tempo sofas is made of steel tube and birch veneer, the upholstered pieces being foam and wadding. The fabric can be chosen by the customer.

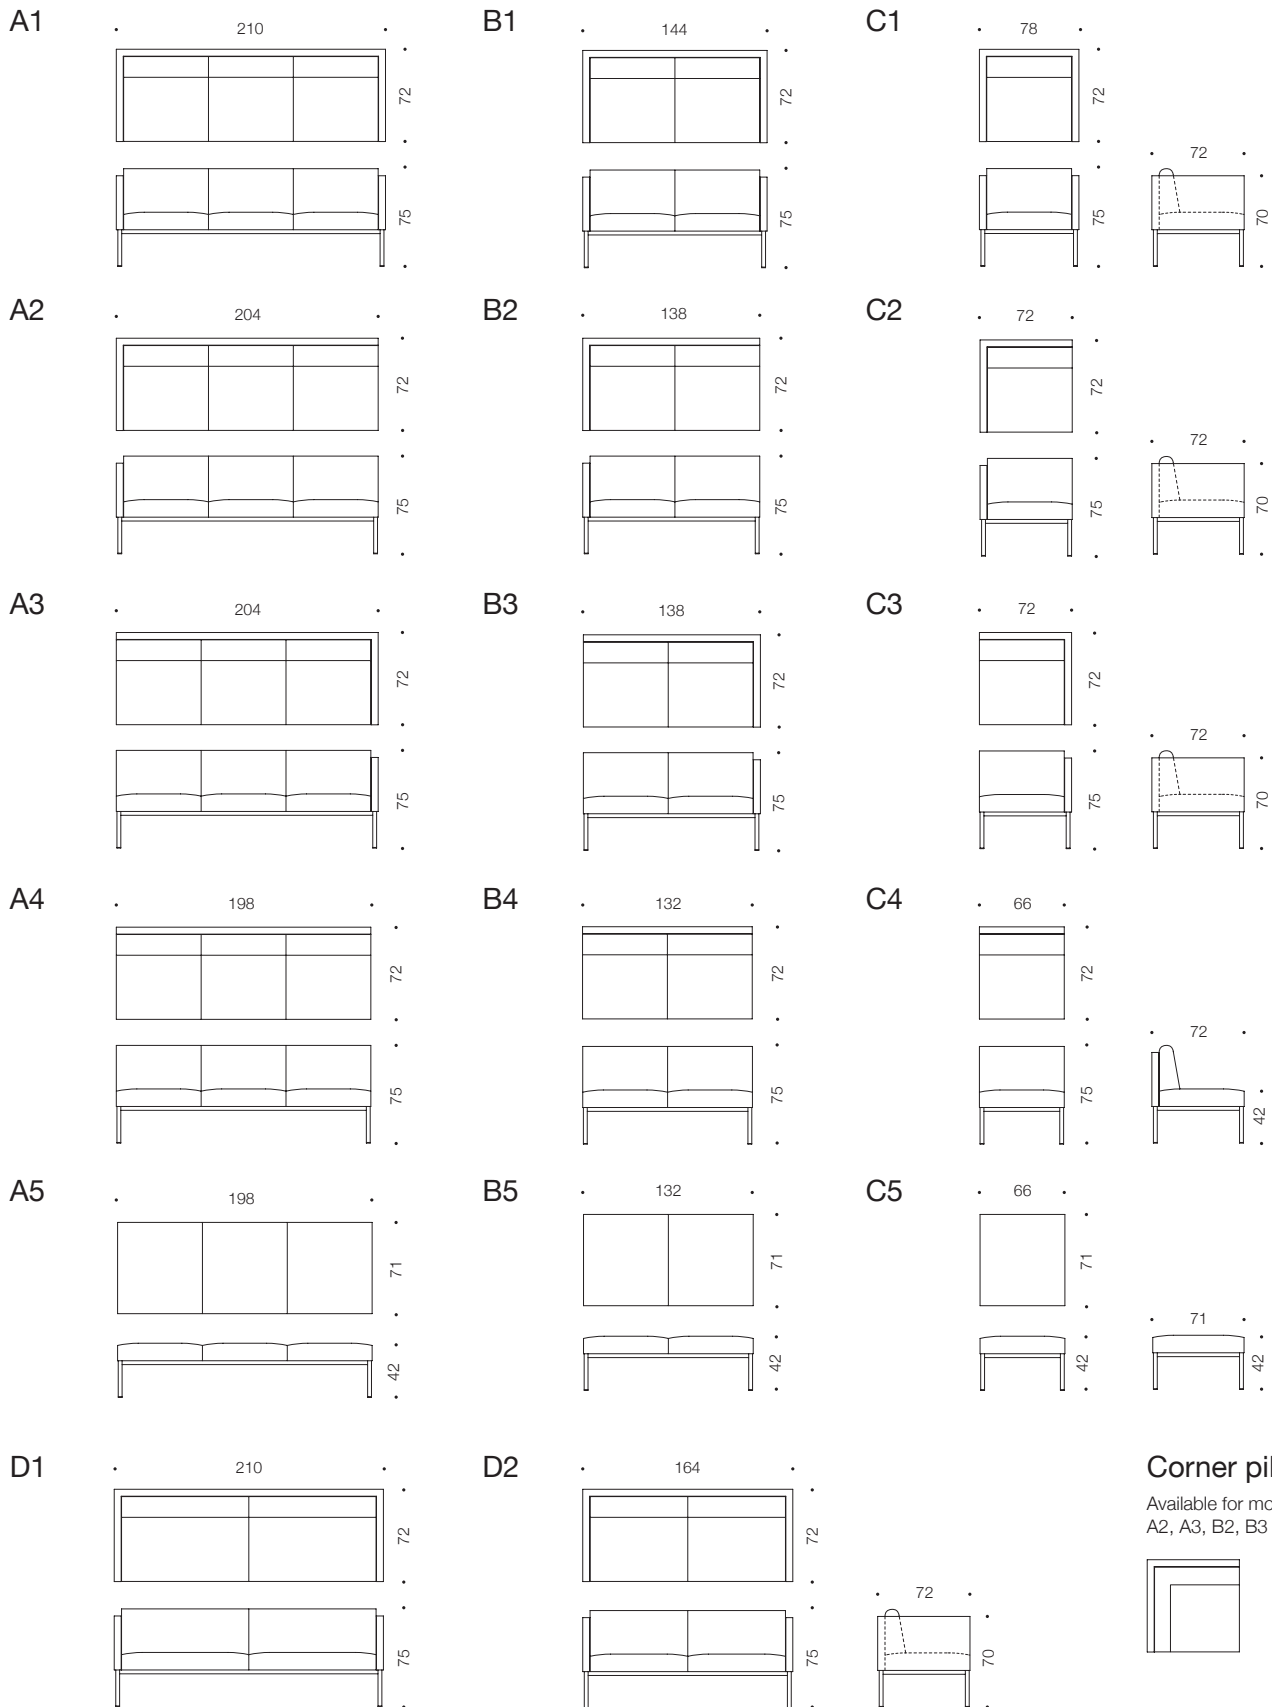

The sofa modules are designed to give a good sitting position. It is easy to sit down on the Tempo sofas as well as stand up. Seat height is 42 cm. The side of the armrest is specified in the sitting position.

The available sofa module heights are 75 cm and 130 cm.

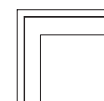

TEMPO t39 sofa modules
