

TEMPO t35k wooden chair

design Timo Saarnio

Tempo t35 with armrests is part of the Tempo collection of universal wooden chairs. A solid wooden frame is concealed beneath the thin, form-pressed seat and back, giving the chair a simplified and light appearance. The integrated wooden armrests add support and functionality while maintaining the chair's refined character.

Despite its straight form, the Tempo chair with armrests is highly comfortable thanks to a recessed seat. Comfort and ease of use can be further enhanced with an upholstered seat and backrest. The chair can be fitted with a row connector.
